County Sets Limit on Rural Liquor Licenses

By MARION BARTOSIAK Press-Record Staff Writer
The Madison County Board of Supervisors established a limit of 106 liquor licenses for unincorporated areas of Madison County during a meeting Wednesday morning. Marshall Smith, the board's legal advisor, said the action was aimed particularly at controlling the liquor license situation on the Collinsville Road strip and to prevent reopening of two taverns along the strip. The county now has 103 licensed taverns and package liquor stores, and Roy Halbe, chairman of the liquor license committee, explained that three legitimate applications are pending, including the Fairmount Race Track. He said that with the limit, the liquor commissioner would have better control of the issuance of licenses when an opening occurs. The old ordinance of 1934, still in effect, contained no limitations on the number of licenses, and the annual fee of \$300 has never been changed. Smith pointed to limits of limitations — "the licenses can be valuable and can be sold" — but said it is the best weapon available to combat conditions along the strip. The advisor noted that conditions in the area have been improving. "The area is building itself up," he said, "people are building new homes, some of which are better than the old ones." But Smith, former Wood River city attorney, pointed to law enforcement, "a good deputy sheriff there," a depression (lack of business) and the inability of proprietors "to get along with each other," as other main reasons. Roger Elbie of Wood River Township suggested that the fee be raised, in view of the increase of license fees and for other purposes, including the county nursing home. Elbie again commented that some taverns in the county remain open all night, drawing a quip from Halbe: "If you find

Demos Wage Nameoki Committee Fight; Nine Posts Are at Stake

Races for Democratic precinct committee posts in Nameoki township will spark Tuesday's primary election in the Quad-City area where voters are to elect 61 precinct committees for each of the two major parties. Democratic candidates will be on the ballots in all 61 precincts of the four Quad-City area townships, but some Republican committee members are expected to be elected by write-in balloting since many precincts in the Quad-Cities have no GOP candidates. Precinct committees are elected rather than nominated in primary elections, running for the office each two years. The number of committee members in each party to be elected this year includes 32 in Granite City, 11 in Nameoki township, 11 in Venice township and seven in Chouteau township. Battles for the committee posts in Nameoki township number those of any other township, even exceeding the number of Democratic contests in Granite City. No GOP contests There are two candidates on the Democratic ballot in each of Nameoki Precincts 1, 2, 3, 4, 5, 6, 7, 8, 9 and 11, and only one Democratic candidate in each of precincts 10 and 12. There are no contests on the Republican ballot in Nameoki. Only one candidate filed on the GOP bal-

3 Suspects Charged in GC Robbery

Two armed robbers took \$96, a set of store keys and the owner's wallet from the Yarn Shoppe, 3727 Nameoki Road, at 7:30 p.m. Tuesday, Madison and Venetia police later arrested three men who were charged with armed robbery. Mrs. Peggy Dicky, owner of the shop, told police that as the two men entered, one displayed a large gun and said, "This is a stick-up. Where is the money?" One man walked behind the counter and took \$88 while the other went into the back room to get the store keys from a desk drawer, the victim stated. They then took her wallet containing \$8, credit cards, 1970 Evans Industries and Granite City having been acquired for capital stock on a poolings-of-interests basis, National Steel's data for prior years (Continued on Page 7, Col. 7.)

Better Year Ahead in 1972, National Steel Predicts

National Steel Corp. "took two major steps forward in 1971 through acquisition which will contribute importantly to its growth," President George A. Stinson reported to stockholders Tuesday in the company's 43rd Annual Report. Financial results for 1971, Mr. Stinson said, were most satisfactory, reflecting the instabilities of a labor-contracting year and record-breaking steel mill production, as well as a dilution in earnings resulting from the acquisition of Evans Industries. "Based on the present outlook," Mr. Stinson said, "1972 should be a better year for National Steel." Early in 1971, National Steel acquired Evans Industries of Kentucky, doubling its reserves

of metallurgical coal there. In August, it acquired a Granite City Steel Co. at Granite City, filling "an important and costly gap in our overall production capabilities," Mr. Stinson said, adding: "The effect of these acquisitions will be to enhance our profitability after short-term difficulties, which are inevitable in such combinations, are behind us." Net earnings in 1971 were \$65,685,109, equal to \$2.61 per share, compared with \$63,103,735, equal to \$3.30 per share, in 1970. Simon's Handling of Tax Issue Blamed For Growing Split in Demo Leadership

By KEN WATSON Copy News Service Springfield—An ominous split is developing among the Illinois Democratic leadership. It could cost the party the November election. Blame for the party rift is being placed on Lt. Gov. Paul Simon, organization-backed candidate for governor. It is no secret at the Statehouse that some of the state's top Democrats including some who expect to be on the November ballot with him are bitter about his handling of the state income tax issue. Important Democrats not only are incensed that Simon has taken Republican Gov. Richard J. Ogilvie off the hook on the income tax but that Simon apparently acted on his own without consulting any of them about what he planned to do. Chicago Mayor Richard J. Daley has already publicly verbally spanked Simon for identifying the party with plans for a hike in the state income tax. Some Statehouse Democrats would like to react stronger than that but fear that to do so would only complicate the party's existing troubles. Although Simon continues to wage a vigorous effort to clari-

Use of President's House of SIU Agenda

Reconsideration of the use of the "President's House," previously designated as a conference center, is on the agenda of the Southern Illinois University Board of Trustees, tomorrow at 9:30 a.m. at the SIU Vocational-Technical Institute near Carterville. To cover the cost of the house, W. Clemens Stone, Chicago philanthropist, gave the SIU Foundation \$1 million in stock, with the stipulation that the stock was not to be sold for three years. One proposal to be considered Friday is that, pending sale of the Stone stock, the University sell its interest in the structure to the Foundation, with the understanding that the house would be leased to the University for use as a president's home. No action is expected Friday other than possible approval of the plan, in principle, with instructions for all angles of the proposal to be explored prior to the meeting of the board in April. Other agenda matters include: the Southwestern campus — consideration of a financing proposal for additional student housing, presentation of a faculty evaluation plan, abolition of certain instructional units and deletions and changes

Sasyk Claims Mobile Home Tax Adequate

Madison Mayor Mike Sasyk, head of a land trust that proposes construction of 420 million residential-commercial industrial area on a 702-acre tract in Chouteau and Edwardsville townships, asserted today that objections to the plans "simply are not based on fact." Sasyk met with B. J. Davis, superintendent of Granite City School District No. 8, yesterday afternoon and Davis agreed to allow the mayor to present details of the plan to the Board of Education Monday night. In response to claims by objectors that the location of 3,000 mobile homes intertwined through a 543-acre golf course would provide inadequate tax revenue to pay for schooling and other tax agency services, Sasyk released additional plans for the project. "This will be one of the most beautiful developments in the state of Illinois and will be a benefit to our area — not a detriment," he said. Plans call for 3,000 mobile home pads located throughout the golf course. Also included are a 100-acre commercial area, a 40-acre industrial site and an 89-acre strip on which 300 apartment units may be constructed later. On By-Pass 66 The project will be located

Two Persons Injured In Two-Auto Accident

Two persons were injured when auto driven by Mrs. Susan E. Percy, 20, of 711 Twenty-seventh Place, and Lois A. New Mobile Home Complex Causes Worried Reaction in Nameoki Twp.

By VALERIE EVENDEN
Press-Record Staff Writer

Opponents of the proposed mobile home park, apartment-industrial - residential - commercial area and recreational project near Route 111 and Interstate 270, struck a responsive chord in Nameoki Township auditors when they presented their views at a town board meeting Monday evening.

Speaking in opposition to the proposed large-scale development were Mrs. Margaret McQuade and Mrs. Gail Gargac, who sought the aid of township officials in convincing the Madison County Board of Supervisors to reject zoning for the multi-million dollar construction project.

The women are co-chairmen of a citizens committee—Group Rejection Against Sasyk Projects—which formally organized last week to fight the development plan.

"We are here to ask your support in our rejection of a proposal to rezone this land from an agricultural area in order to construct a 3,000-unit trailer park," Mrs. McQuade said.

estimated at \$130, take care of educating a child. Plus, the cost of drainage, fire protection and road maintenance services needed for such a large area.

"According to figures provided by E. J. Davis (Granite City superintendent of schools) it costs \$85 per year to educate each child.

"Developers of the project reportedly predict that 3,000 trailer homes can be located in the park within six months," she added.

Mrs. Gargac noted that figures obtained from local school officials indicate that transportation costs for bussing children from the rural area now exceeds \$233,000 annually.

"To buy an estimated 4,500 new children from the proposed development would double the present cost," she said.

"We Are Concerned
"We are very concerned," Mrs. Gargac continued. "In no way would the amount of taxes paid per trailer unit, only with the problems confront-

ing the local school district, should this development get final approval, but with other aspects such as drainage," she said.

"We are not as knowledgeable about the drainage situation, but we do know this project will be a drain on the area as the schools are concerned."

Remarks relating to possible drainage problems might be action from the officials who have been plagued with complaints on poor drainage in various sections of the township.

Auditor Eugene Gargac said, "It seems we are going to be directly involved in this thing one way or another and I think we had better wake up before it's too late."

"Contest Supervisors"
Auditor Robert Beedle, who was in charge of the meeting, asked what could be done to assist those opposing the project.

Mrs. Gargac suggested the township officials contact members of the county board of supervisors and circulate petitions against rezoning the area.

Lake Areas Still Not Open to the Public

Area residents who have been flocking to Horseshoe Lake areas during recent days of nice weather were warned today that most of the lake property still is privately owned and is not part of an Illinois State Park.

William Nichols, a landowner in the area, said that a number of property owners have become angered over trespassing on their property by persons who innocently believe the area is part of a state park. Actually, Nichols said, the park has not been established at this point and the land still is privately owned.

He said some property owners have threatened to file charges against persons found trespassing on their land. Most of the trouble apparently stems, Nichols said, from political advertisements attributing to Governor Richard Ogilvie the establishment of the Horseshoe Lake State Park.

"People believe from these ads that the park is available for use, and on nice days they flock out here in large numbers," Nichols said.

Trailriders Club Sets 1st Spring Ride Sunday

Weather permitting, the Trailriders Saddle Club of the Quad Cities will hold its first trail ride of the season on Sunday afternoon along the Chain of Rocks Canal levee.

Riders will meet at the club's arena on Chouteau Slough Road at 1 o'clock, Gene Jones, president, advised. Those taking part are asked to provide their own refreshments for the season's first outdoor activity.

Plans for the ride were discussed Tuesday evening at a meeting at the Jones home on Rural Route Two. Concern was expressed on the disappearance of portions of the arena ring and sections of bleachers.

Boards were removed by thieves who attempted to destroy the bleacher seats, Jones said. Sheriff's deputies have agreed to keep the arena under observation, the officer reported.

Another problem prevalent near the club facility on Chouteau Slough Road is dumping of refuse, which creates a serious health hazard, Jones said.

At least one private auto or truck dumping trash in that location is asked to note the license number and report the incident to the Madison County Sanitation Department, he announced.

Dues are payable by April 11 or refilling for membership will be required, he said. Members without current cards will be charged non-member rates at club activities, Jones cautioned.

White shirts will be used as a club uniform this year and members are urged to obtain the shirts for lettering prior to the April 11 meeting. The club name will be printed on the shirts at a cost of \$2.50 each, the president said.

Refreshments were served by the host couple to conclude the business meeting.

Mrs. Antonia Barry, Madison, Dies at 84

Mrs. Antonia N. (Rapezak) Barry, 84, of 1801 E. 1st St., resident of Madison for 60 years, died at 10:30 a.m. Tuesday at the Colonial Nursing Home, Maryville, Ill.

She was a native of Poland and resided there until moving to this area.

Mrs. Barry was a member of St. Mary's Roman Catholic Church. Her husband, Joseph Barry, died Jan. 8, 1958, leaving her two daughters, Mrs. Frank (Mary) Smoltz of Granite City and Mrs. John Steimasko of Chicago, two sons, Stanley Steve Barry of Madison and Michael H. Barry of Granite City; seven grandchildren and nine great-grandchildren.

Funeral arrangements are given in the obituary column.

Children Entertain Madison Rotarians

Under the direction of Mrs. Valerie Stevens, music and vocal director for Madison schools, the children presented special Irish musical numbers in keeping with St. Patrick's Day. The Rotarians also received green hats and green garters from the children.

John Sedlack, program chairman for next week, announced that the program will deal with the purchasing of cemetery plots.

park in Edwardsville Township, only about 33 of these children will be in the Granite City School District and of those, half already will be enrolled in local schools, he stated.

"I don't think an additional 17 or so children per year will disrupt the school district," the mayor commented.

He said the mobile home project would be far superior to the building of Federal 225 grant homes on the property as mobile homes yield 1.2 children per acre and the 225 homes yield seven children per acre, according to statistics.

Sasyk said that six mobile homes can be placed on one acre, while three and one-half 225 homes could be built on the same ground.

The acre with the mobile homes would produce about \$900 in taxes annually, \$100 for each home and \$80 on each pad, while the cost of educating the 1.2 children would be about \$650, after state assistance. According to statistics, mobile homes produce more income to school districts than the cost of educating children, he emphasized.

The 225 homes would present a contrast, he said, producing \$1,400 in taxes annually, but costing the taxpayers about \$2,300 to educate the seven children residing there.

In answer to objections that the park may draw lower-income persons from distant areas, Sasyk explained that statistics have shown most mobile home residents come from the local area. He also contended that 90% of mobile home residents remain in one location five years or longer.

He added each mobile home admitted must be at least 12 by 30 feet and would be required to pass a visual inspection before being admitted to the park. He said limiting admission to the larger and more expensive homes will avoid the possibility the project ever could become a "shum" area. He said the proposed lot rent also will be higher than in other courts in the county, further lessening the chance that low income persons from other areas would decide to move there.

The project not only would include a golf course for the residents but a recreation center and swimming pool as well. These facilities will be limited to the mobile home residents.

Edwin LeCompt, 70, Former Resident, Dies

Edwin LeCompt, 70, of Waco, Tex., a former resident of Granite City and Glen Carbon died at 11 p.m. Tuesday in the Waco hospital. He had been in ill health for two years.

Born in Camden, Mr. LeCompt, resided in this area 25 years prior to moving to Texas 12 years ago.

He was employed as a fireman for the Missouri Pacific Railroad until his retirement.

Mr. LeCompt was an active member of St. Margaret Mary Roman Catholic Church in Granite City and St. Cecilia's Roman Catholic Church in Glen Carbon.

Survivors include his widow, Mrs. Jo Ann LeCompt; a son, Joel LeCompt, U. S. Air Force stationed in Hawaii; a stepdaughter, Mrs. Mildred Ward of Arnold, Mo.; two sisters, Mrs. Loretta Hager of St. Louis and Mrs. Rose Billich of Granite City; three brothers, Olin LeCompt of East St. Louis, Chuck LeCompt of LeMay, Mo., and Lester LeCompt of Dupon, Ill.; 8 grandchildren and several nieces and nephews.

Funeral services were conducted this morning in Waco.

Auto Strikes Fence

A hit-and-run auto struck the fence at Kirkpatrick Homes at Nantucki Road and E. 25th Street at 11:05 p.m. Wednesday.

The recreation facilities also will be open to the apartment dwellers when those units are constructed.

Also included in plans for the project is a complete sewage treatment plant.

"I don't see how there could be any objections from environmental groups," the mayor commented.

"This whole thing will take from 10 to 15 years to complete and there will be careful study before each phase of work is started. There will not be a giant that will suddenly descend on the area, but will be a beautiful development which we plan to build slowly and carefully. I just do not see how there can be objections to it."

Construction is scheduled to begin on the first mobile pads as soon as approval is granted by the Madison County Board of Supervisors. The issue is on the board's April 18 agenda. Leo Wolf Construction Co. has been retained as builders.

their bosses in some cases, and it was expected by some that skeleton staffs will be maintained in all offices.

The cost of medical attention for prisoners at the Madison County Jail was criticized. Paul Riebold of Jarvis Township remarked that it "is getting expensive at \$40 a day. It seems that every person going to jail needs a doctor."

John Kravack, county auditor, added that the March bills will include one for about \$1,000 for a prisoner who was beaten and hospitalized.

Smith told the board that the county is liable for a \$12,000 hospital bill involving an Alton youth who, more than a year ago, was shot in the neck and paralyzed while he was under the jurisdiction of the Illinois Youth Commission. He added, however, that he believes the IYC will reimburse the county. A proposed five-year lease about 27 acres of farm land at the county nursing home to James Tush of Route Four, Edwardsville, at the recommendation that bids be called and that federal soil bank provisions be investigated.

The board approved a motion by Dan Churavich of Granite City to authorize the county to collect mobile home taxes for the cities of Granite City and Alton, as home rule units, if the cities request the service. He said it would save the cities the expense and effort of establishing a separate collection agency and the cities would receive the funds.

An additional \$1,615 was appropriated for expenses of the Granite City Township tax collector, bringing the total city cost to \$23,529 and the total county costs for township tax collections at \$254,971.

Bill Marks was appointed to five-year term to the Madison County Zoning Board of Appeals, expiring March 20, 1977, to succeed Russell Spann, whose term expired.

A motion by David Huckle to permit Mrs. Gae Gargac of Granite City to voice objections to a mobile home development in Chouteau Township was ruled out of order as the board is to resume consideration of favorable zoning board recommendations at its April 28 meeting.

Scott-Barzoff Nuptials In National City, Calif.

An out-of-town wedding of interest here was that taking place Feb. 19 in National City, Calif. of Mrs. Margaret Leavelle Barzoff of Granite City and Thomas Jefferson Scott.

The ceremony was performed at the Baptist Temple in National City. As guests arrived they were presented tiny packets of rice wrapped in white and silver net.

Mrs. Charlene Danner, the bride's sister, was matron of honor. She selected a coat and dress ensemble in aquamarine blue, fashioned with a face applique and collar and sheer pleated sleeves cuffed with lace motifs. She held a nosegay of pink carnations.

Immediately following the ceremony a reception was held at the Stewart home in National City. Arrangements for the champagne and buffet luncheon were handled by Mrs. William J. (Margaret) Oliver, the bride's daughter, and Mrs. Jack H. (Vickie) Stewart, the groom's daughter.

The bride owns and operates Cut and Curl Hair Stylists salon in Nameoki Village Shopping Center.

Mr. Scott, who is retired from the U. S. Navy, now works as a certified welder.

Stats Show Reason For Strong Warrior Finish

Statistics show the reason for a successful 1972 record fashioned by the Granite City High School basketball team during the 1971-72 season which led them to a share of the Southwestern Conference championship.

On the average, the Warriors of Coach Don Deterding outscored their opponents by nearly three points, 71.5 to 68.9, while three members of the varsity were in double figures. They are All-State Terry Ripka with 27.4, Joe Wallace with 13.9 and Kevin Dyer with 10.1.

In addition, four topped the century mark in rebounds as Ripka collected 160, Dyer 132, Tom Vrenick 104 and Wallace 101.

Following are stats on field goals, free throws and rebounds of some of the key Warrior players:

Ripka 228 field goals, 146 free throws and 160 rebounds; Wallace 147, 53, 101; Chuck Krause 24, 18, 71; Bob Wiggins 55, 59, 83; Dyer 77, 36, 132; Vrenick 72, 49, 104; Rick Prehn 56, 36, 72.

As a team the Warriors attempted 1,410 field goals and made 687 for 48.7% compared to their opponents who attempted 1,338, connecting with 588 for 44%.

The Warriors were granted 696 charity tosses and connected with 414 for a percentage of 68.3. Their opponents attempted 600 free throws and sank 371 for 61.8%.

GCHS cagers out rebounded their opponents 742-671.

Warriors who ended their prep careers are Wallace, Ripka, Krause, Dyer, Wiggins, Prehn, and Dan Dier.

Cougar Baseball Team To Open on Road Tour

The Southern Illinois University-Southwestern baseball team will open its season Monday and Tuesday with a tour of the Southeast.

Coach Roy Lee's local Cougars, who finished last year with a 23-13 mark, will be at Jacksonville, Fla., for the first two days to meet Kent State and a Jacksonville University, then will move to Valdosta Georgia State for a twinnin on Wednesday.

The schedule calls for games at Spring Hill College next Friday, Saturday and Sunday and a doubleheader at Arkansas State University on March 27.

The home opener will be a two-game game with St. Mary's College on March 31.

Early question marks for the Cougars were the physical condition of Jerry Pilcher, senior centerfielder and the team's leading hitter in 1971 with a .382 average, who suffered a paralyzing injury in a physical education class late in January, and the eligibility of senior first sacker Dan Cole, the Cougars all-time leading hitter. Both are on the roster.

Only three starters are lost from Lee's 1971 team — John McFarland, senior pitcher, Dennis Schutzenhofer and Rick Keefe. With three winning hurlers—Steve Malone and Ron Middleton—back and a wealth of talent on hand, the cougars could romp to their third straight NCAA post-season tournament berth.

Coach Lee believes he has enough talent to post a winning season. He'll call on the veteran utility man, Mike Allaria, to fill Keefe's third base spot and will move veteran John Belk from shortstop to second base to fill the void caused by Schutzenhofer's graduation. At shortstop, he'll start Joe Crenshaw. If Crenshaw or Allaria falter, he has Tom Twellman to fall back on.

At first base Lee plans to shift Cole there from left field. In the outfield, Jan Disherger

3 Local Squads Survive In Park Hockey Tourney

Three of the four local teams in the Granite City Park District Hockey Tournament were successful during the six first-round games played Tuesday and last night.

In the Squirt Division, Country Club Estates of Granite City survived first round competition and Rapoff Realty of the Bantam Division also was victorious.

Mendoza Sporting Goods was eliminated in an overtime Pee Wee Division game last night, losing 3-2 to Florissant. The Lindsay Construction Midget Division squad will take to the ice for the first time tonight.

In action Tuesday, Country Club Estates downed Valley of St. Louis 4-1 on two goals by Kevin Mayer and one each from Billy Brown and Todd McFarland. McFarland's point was snatched and he had a hand in two other goals. Other assists were credited to Mayer and Joe Petty. Andy Rapoff was the winning goalie.

Country Club Estates will meet Webster Groves, Mo., in the Squirt final at 6 p.m. today. Webster Groves downed St. Louis Hockey Club 13-2 Tuesday evening to advance to the finals.

In the Bantam Division, an unassisted goal by Bryan Buean and a goal by Dave Rapoff, assisted by Jim Warchol, gave

708 Re-Elects Yemm Chairman

Ralph Yemm of Wood River was re-elected chairman of the Madison County Mental Health (708) Board at the monthly meeting Monday night in Edwardsville. An attorney ruled his election at a previous meeting was illegal because the election had not been listed on the agenda.

Yemm and Howard Klaus of Collinsville, secretary, were returned to four-year terms in their offices.

The 708 Board requested a cost estimate on a proposed study of means to reorganize mental health care in the county.

A presentation from Richard Scheffel of R. C. Scheffel & Co., accountants, Alton, was heard which proposed the study to determine if a new coordinator or administrator is needed and to suggest means of improving mental health care in the county.

A special meeting of the board was called for Wednesday, April 5, to consider Scheffel's cost estimate. The accounting firm presently is studying ways to streamline the operations of several offices in the Madison County Courthouse.

Yemm reported he has received several applications from persons seeking the coordinator or administrator post but such a position is suggested by the study. "Some of them look very good," the chairman commented.

The 708 Board fired the last coordinator in September after he served only seven months in that office.

Mr. McFalls was born in Douglas County, Mo., but had lived in this area most of his life. He was employed as a crane operator at Granite City Steel Co. for 37 years, prior to his retirement.

He is a member of St. John United Church of Christ and United Steelworkers Union Local 67.

Survivors include his widow, Mrs. Bernice McFalls; three daughters, Mrs. Max (Sherrill) Kline, Mrs. Vernon (Arlene) Jenkins, both of Granite City, and Mrs. George (Melba) Russell of Union, Mo.; three sons, Gary, Raymond and Larry McFalls, all of Granite City; one sister, Mrs. Verna Reisinger of Walla Walla, Wash.; two brothers, Joseph McFalls of Walla Walla, Wash., and Arley McFalls of Granite City; 14 grandchildren and several nieces and nephews.

Funeral arrangements are being made in today's obituary column.

Mayor Mike Sasyk invited council members to a meeting March 22 at 7:30 p.m. in the Granite City Hall. Changes in the motor fuel tax procedures and handling of motor fuel tax funds will be discussed.

The police report for February showed a decrease from 14 to six burglaries. Thefts increased from 16 a year ago to 17 last month.

Hit-and-Run Accident

21 Years Remains As Age for School Boards

Atty. Gen. William J. Scott has ruled that the Illinois General Assembly will have to act to make 18-year-olds eligible for election as school board members.

The attorney general issued an opinion saying that, in the absence of specific action by the Legislature, the minimum age for election as school governing boards is 21 years. The Legislature last year passed a law giving 18-year-olds the right to vote, but did not change the minimum age for election as school board members.

The position was requested by Michael J. Bakalis, state superintendent of public instruction, who pointed out that 18-year-olds are eligible to serve on juries.

"It has been held that the right to be appointed or elected as a juror is a property right, but a mere privilege," Scott said.

"And when an office is created by the General Assembly it may provide that all citizens of the state do not possess all of the qualifications or fulfill all of the requirements required by the statute. A statute may require the attainment of a specified age in order for an individual to hold a public office."

Auto in Accident

Auto driven by Ronald D. Enriquez, 2125 Dawn Place, and Jessi Tarpoft, 2120 Clark Ave., were in an accident Monday at 235 Ponton Road.

Last of Selective Service Changes Are Now in Effect

The Selective Service System has issued its last major Group or regulation changes and ended more than two years of almost constant reform in draft policies and registrant rights.

The regulations concern procedures for personal appearances and appeals, among other subjects.

The action by Selective Service Director Curtis W. Tarr moves the administrative hold on personal appearances and appeals which has been in effect since late 1971.

Tarr had directed the 4,100 local draft boards to suspend action on most requests for personal appearances and appeals so that registrants would be afforded the procedural rights incorporated in the 1971 amendments to the law.

15-Day Time Limit

The regulation set a 15-day time limit following the mailing of a notice of classification card in which a registrant must request a local board personal appearance or an appeal.

When he demonstrates that his failure to respond within the 15-days was due to reasons beyond his control, his local board may grant an extension of the 15-day period. The new regulations also require local and appeal boards to give a registrant at least 15 days notice of his scheduled personal appearance before his local or appeal board.

Another change announced today gives a registrant who is under a long postponement of induction the right to receive consideration from his local board for a reopening of his classification to hear claims for exemption, deferment or conscientious objector status.

The new regulations also allow a registrant to have up to three witnesses appear in his behalf at his local board personal appearance, require that a quorum of the members of the local board be present, entitle him to 15 minutes for his presentation, and state that his local board must furnish him with the reasons should he receive an adverse decision on his classification request.

Personal Appearance

A personal appearance before a quorum of his state appeal board and, when the vote of the state appeal board is less than unanimous, the presidential appeal board, also are provided by the new regulations.

The boards also must furnish the registrant with the reasons should he receive adverse decisions on his classification request. He is not allowed to have witnesses appear in his behalf before appeal boards.

The regulations issued today were prepublished for public comment in Early January in accordance with a 1971 amendment to the draft law which requires that all changes in Selective Service regulations be "proposed" to the public by printing them in the federal register at least 30 days in advance of the effective date. During the 30 days, public comments were received and evaluated.

The more than two-year period of major reform in draft policies began in late 1969 when the President directed Selective Service to institute the lottery system for determining who should be called into military service.

Then, in April 1970, the President authorized the Phasing-out

of occupational and paternity deferments. At the same time, he asked Congress for authority to phase out undergraduate student deferments and to establish a uniform national call procedure for inducing men into the armed services.

In the fall of 1971, Congress approved these requests and authorized several new procedural rights for registrants. These 1971 amendments to the Military Selective Service Act required implementing regulations, and these have been issued in two parts—the first on Dec. 9, the second last Saturday.

Commenting on the issuance of this last major package of regulation changes, Draft Director Curtis W. Tarr said:

"You can characterize the pre-1969 Selective Service as a state and local system with very little national uniformity. I believe that the draft today is rapidly being transformed into a national system and that one of the major goals of the President is being achieved by providing a draft system with universal equity as the Guideline."

GCHS Student Council To Elect New Officers

By KATHY GRISHAM
And SUE MILLER

Granite City PRESS-RECORD
Page 26 Thurs., Mar. 16, 1972

Resulting from the interest of many students on a campaign promise made last year concerning hour lunches, the policy group, under Kathy Grisham, began an inquiry on the possibility of potential student lunch or hour lunches at Granite City High School.

The Student Council was prepared to hold an extensive inquiry including opinion polls of local merchants and the general public.

But basically because legal opinion is pending on the extent of school liability for students leaving the premises and since a new principal will be appointed for next year, the inquiry has been tabled until a later date.

Student Council will be holding elections Friday to elect Student Council members and officers for the 1972-73 school year. Running for council president are Kathy Grisham and

Buddy Worthen. Running for vice-president are Janet Morlen, John Serlich and Kenny Kibort. The elections this year have been conducted by committee chairman Pete Krieschok and Steve Ashby.

Student Council, under direction of Judy Morris, organized and held a March of Dimes road block last Saturday. In this activity, all Student Council members stood at intersections in Granite City and collected contributions from motorists. The council collected \$465.02 Saturday and, adding this amount to money collected from other March of Dimes projects, it has totaled \$870.00 for the year. The Granite City High School Student Council would like to thank all who contributed to the drive.

EAGLE SCOUT AWARD was presented to Steve Fischer, son of Mr. and Mrs. Otto Fischer, 2600 Adams St., by G. Rollin Henn, Commissioner of the Cahokia Mound Boy Scout Council. Fischer, a member of Explorer Post 10-4, received the award at a post family night. A freshman at SIU-SW he hopes to enter one of the United States military academies in the near future.

Rita Coolidge Shows Lot of New Confidence

By JUDY HUGG
Copley News Service

Those who have been taking Rita Coolidge lightly should now stop and reconsider. "Nice Feeling," her latest album on the A&M label, is by far her best effort as of now.

It seems that Miss Coolidge is getting into her music a little more by letting her emotions shine through via her voice. Up until recently, and on her first album "Rita Coolidge" (A&M), her fine clear voice was hindered by an aloofness that kept the songs from taking flight.

Now, however, with a newly gained confidence, which has stemmed from two tours of Europe, plus an extensive U. S. tour, Rita is coming into her own.

This new confidence can be heard and felt on the new album in several different ways.

First of all Rita and her producer David Anderle have done away with most of the superstar guest spots on this album and rely mostly on the talents of Marc Benno and The Dixie Flyers as backup men.

Second, her choice of songs is far superior to her first album. They tend to be a little less complicated, and this complements the group's style.

The disc contains tunes by such standouts as Neil Young, Dave Mason, Bob Dylan and Benno and deal with the ever popular subjects of love, life and the gospel truth.

The Dixie Flyers, one of the most respected R'n'B backup bands in the world and formerly from Muscle Shoals, show their respect for Rita by never overpowering her voice.

The group consists of Charlie Freeman, guitar; Tommy McClure, bass guitar; Sammy Creason, drums; and Mike Utley, keyboards. Marc helps out on guitars and vocals.

The album kicks off with a little goodie penned by Benno called "Family Full of Soul," then slides into a love story titled "You Touched Me in the Morning." On this one Rusty Young assists on his steel guitar.

"Nice Feeling" is a five-minute ballad written by Benno and it is perhaps the best cut on the album. The final tune on the first side is a splendid rendition of "Only You Know and I Know." Here Don Brooks

platches in with his harmonica and adds just the right flavor to the tune.

Leading off side two is a powerful love story, "I'll Be Here," and Al Kooper of Columbia Records lends a helping hand on the organ. "Lay My Burden Down" is a gospel piece done in fine taste with Rita doing an excellent job on the vocal end.

Super Standout

Another super standout is Dylan's "Most Likely You Go Your Way (And I'll Go Mine)." Rita does a cool, but not cold, job on this one and Brooks with his harmonica along with Freeman and McClure's guitars add the perfect backing needed.

"Journeys Through the Past," Neil Young's masterpiece, is the final cut. Here Rita abounds with confidence as she plays her piano and Nick De Caro joins in on his accordion to make the lovely ballad one of the strongest cuts on the album.

Miss Coolidge, who was born in Nashville, Tenn., is a preacher's daughter and began singing in the church choir at the age of 2. Later they moved to Florida where she attended Florida State before traveling to Memphis to sing radio spots and jingles.

Upon moving to California, Rita met Delaney and Bonnie Bramlett with who she toured on three different occasions. As a studio vocalist, she has worked on albums by Dave Mason, Graham Nash, Eric Clapton, Stephen Stills, Booker T. and the M.G.s, Benno and Joe Cocker, an impressive list of credits.

Now with her career in full swing, Rita wants to get out on the road and reach the people more. She says she wants to work in Canada where her "I Believe in You" became an enormous hit, plus she hopes to play to college audiences all over the United States.

ALL ABOUT ALBUMS

Columbia Masterworks has released two new albums with Leonard Bernstein conducting the New York Philharmonic. Schubert's "Symphony No. 9 in C Major," reverently known as "The Great," and Wagner's "Tristan and Isolde Prelude," "Meistersinger Overture,"

BERT'S CHUCKWAGON

"Flying Dutchman Overture," "Rienzi Overture."

Bernstein once described the music of "Tristan and Isolde" as being "as passionate as any one can get within the bounds of decency." And Bernstein and the New York Philharmonic bring out every nuance of passion and "Sturm and Drang" (storm and stress) in this selection from the works of Wagner.

From the opening haunting notes of Schubert's symphony to the stirring climax, Bernstein and the New York Philharmonic bring to life this finest of the works of the composer who died at such an age. Written in 1828, at a time when he was deep in despair, "The Great" is nevertheless high-spirited and joyful, and this interpretation of it is a beautiful, moving experience.

ED AMES (RCA-Victor)

This latest album of Ed Ames runs the gamut. Ames starts with "Take Me Home," Country Roads, "I Am... I Said," "Loving Her Was Easier (Than Anything I'll Ever Do Again)," continues with a surly take on "The Soldier." His warm rendition of "Sunrise, Sunset" closes the album. This is a showcase for the talented Ed Ames.

Chevrolet introduces the seat belt that never forgets.

Chevrolet's new safety belts have three things going for them:

- 1. An integrated three-point connection system between lap and shoulder belt.
- 2. A little locking device that instantly adjusts the seat belt to any girth.
- 3. Even though you may forget to buckle up, our new seat belts remember. They

remind you to fasten your belts via a red light on the dash.

And should you fail to get the message, a little buzzer buzzes "If you've made a connection."

Our new three-point seat and shoulder belts... with a built-in memory.

Another idea from Chevrolet you can live with.

Duffy Could Draw With Both Hands

Editor's Note: Raoul Duffy, 1877-1953, a French-born artist, was noted for his superb draftsman-ship and unusual dexterity with color. This is another in a series on what famous people were like in their teens.

By BETT ANDERSON
Copley News Service
In many ways, though he was

poor, Raoul Duffy was a lucky teen-ager.

It's true that he had to drop out of school at 14 and get a job. He was one of nine children and Monsieur Duffy, his father, could hardly see out a living.

In spite of these handicaps, Raoul's parents believed that everyone should do his thing. Raoul's thing was drawing. And his parents, though they wished their son was more practical-minded, encouraged him to take evening courses.

The Duffy family lived in the lively, colorful port of Le Havre, France. Raoul was fascinated by the light of the sea on sails. The constant movement of clouds and tides made him long to paint them.

But his art teacher would not allow Raoul, or any of his students, to use color until they had first learned to draw well. Paints were the students' reward for perfecting draftsmanship.

Raoul soon learned that he could make a drawing of great vitality with just a few strokes of his charcoal stick. He decided to create a challenge for himself by learning to draw with his left hand as well as his

Voter Restrictions On Primaries Lifted

Party membership restrictions in the March 21 Illinois primary election were voided by a federal judicial panel at Chicago.

A 2-1 decision declared unconstitutional a state law prohibiting voters from switching political parties in a 23-month period. The ruling will permit registered Republicans to enter the Democratic primary which includes a battle for governor between Lt. Gov. Paul Simon and Daniel Walker.

Simon and Walker said the ruling boosted their campaigns. Chicago Mayor Richard J. Daley disapproved and said the purpose of the law was to have voters nominate their own party candidates.

The majority ruling commented that "Whatever are the advantages of maintaining party stability for elections on any given level of government, they do not apply when national, state and local contests are considered together. A voter ought not to be required to hold himself bound to a single party on every level of government."

Rail Relocation, Gateway Agency in Regional News

The \$465,000 railroad relocation study for Metro East and St. Louis will be made by a consortium headed by a New York City firm. The company, selected this week by an East-West Gateway Coordinating Council task force, previously did a feasibility study on rapid transit for the St. Louis area. The proposed 20 month study to relocate rail lines is a prerequisite to a federal park on the East St. Louis riverfront.

In related news, a proposal calling for a super agency, under the control of the board of directors of East-West Gateway Planning and Development Agency, would both plan and operate airports, rapid transit, and the bus system.

More than \$1.7 million has been pledged for the proposed 123 bed hospital in central Madison County. The campaign goal was \$1,000,000. The hospital is expected to cost \$6.5 million and will be operated by the Southwestern Illinois Health Facilities, Inc. The hospital will be named after Oliver C. Anderson, whose family made a sizable contribution to the campaign.

Developments in Metro East water and sewer projects this

week included approval by the Illinois Natural Resources Development Board of the Madison-Macoupin County Intercounty Water Commission's \$8 million plan to construct a 1700 acre lake to supply water to 18 communities. Gov. Richard B. Ogilvie announced the state will advance \$165 million for sewage treatment projects in Illinois communities; at a hearing before SIMAPC officials and Illinois and U. S. administrators, Quad-City township supervisors won regional-state-federal approval of a \$12 million program

for construction of interceptor and collector sanitary sewers; residents in the Rosewood Heights Sanitary District voted almost two to one to retain the district and construction on the \$1.62 million extension of the sanitary sewer system in East St. Louis has started.

In a move to avert the further exodus of industrial firms from the area, a proposal made by Mayor Donald Patrick for the creation of a new Granite City agency empowered to issue revenue bonds for the purpose of financially aiding local

industries was approved tentatively by the city council. The agency, Granite City Industrial Pollution Control Financing Authority, would concentrate on providing funds to industries for air and water pollution control facilities, permitting the industries to use their own funds for plant operations or improvements, or expanded business programs.

In other business news, Pfizer, Inc. declared a regular first quarter dividend of 15 cents per share on common stock, and at Martha Manning in Collinsville, sales for the fiscal year ending Jan. 1, 1972, were up 15.8% and net earnings up 13.4% from the previous year. In St. Jacob, the State Bank of St. Jacob has moved into a new building. In Caseyville, the Village Board of Trustees has approved the annexation of an area containing 38 residences. The area is located east of Illinois 157 in the vicinity of St. Stephen's Catholic Church.

In general area news, the budget of the Illinois Department of Conservation includes money for the purchase of land in both Pere Marquette and Horseshoe Lake State Parks; a committee to work toward park improvements in Belleville is being organized; and William Ebersold has been re-elected president of the Board of Trustees of the East Side Levee and Sanitary District.

\$3,200 in New Clothing Donated to Youth Shop

A large quantity of new clothing has been donated by Mrs. Helen Schaefer to the "Nearly New Clothing Center," a project sponsored by the Quad-City Council of Church Women Unit. Estimated value of the gift clothing items is \$3,200.

Mrs. Schaefer and her late husband, Ervin, formerly operated a clothing store and farm equipment firm on Alton Road. She recently closed the business.

Mrs. John (Joyce) Schrader of Church Women Unit, who coordinates activities at the "Nearly New Clothing Center," said, "The clothing articles we received from Mrs. Schaefer are wonderful."

"It was a very fine gesture and she certainly set an example that other retail merchants Among the items donated

in this area could follow." were school dresses, slacks and pants suits, boys and girls sweaters, shirts, blouses and night attire, Mrs. Schrader said.

The "Nearly New Clothing Center," located beneath the Coordinated Youth Services office, 1235 Niedringhaus Avenue, furnishes clothing to students who are referred to the program by teachers, counselors, school nurses, juvenile and probation officers, social workers and other professional people who work closely with children.

The center is staffed by volunteers who attempt to prevent the clothing items to the young people in an attractive and dignified manner, creating more of a "shoplike" atmosphere rather than a place from which clothing is distributed to those in need, Mrs. Schrader explained.

Venice-Madison Unit Aids Ray Gean

Contributions to the Ray Gean Fund and the local Multiple Sclerosis campaign were authorized at a meeting of the Venice-Madison American Legion Auxiliary Unit 307.

Miss Dorothy Hinson, president, was in charge of the business session, with donations also made to the Illinois Soldiers and Sailors Children's Home in Normal and to the "Coupure fund" for scholarships in Illinois. The unit also mailed cards and gifts to two boys at Ben-

nett Cottage and the Normal facility.

Plans to serve luncheon at the American Legion birthday party, to take place Saturday 8 p.m. at the Venice Legion hall, were discussed. Mrs. Helen Brown, community service officer, will be in charge of the event.

Mrs. Mary Ballentine, rehabilitation chairman, reviewed a party given for veterans at Alton State Hospital, where unit members served chicken dinner and provided games and prizes.

Refreshments were served following the meeting to 21 women. Mrs. Norma Hillmer, Mrs. Kathryn Fellers and Mrs. Linnie Bergman were hostesses. A prize was awarded to Miss Hinson.

Past Matrons Plan Banquet

Mrs. Blanche Leuchter entertained members of the Past Matrons Club of Granite Chapter 650, Order of Eastern Star, during the weekend at her home in Creve Coeur, Mo., for a noon luncheon and meeting.

Mrs. Cora Hettick, the newly elected president, conducted the business session. She also announced plans for the annual past matrons and past patrons banquet, to be held March 25 at the Masonic Temple.

Games were played, and prizes were awarded to Mrs. Mary Bilbrey, Mrs. Virginia John and Mrs. Florence Spohr. Others present were, Mesdames Arline Fox, Clara Harbig, Mary Elder, Louise Meador, worthy matron of Granite Chapter and Fairy Bodman.

MISS LAURA McCOMMIS HONORED AT SHOWER

Miss Laura McCommis was the honored guest at a bridal shower given by her maid of honor, Miss Janet Zammmer and bridesmaids, Misses Nancy and Becky McCommis.

Decorations and table appointments were in pink and white, with a miniature umbrella as the centerpiece. Games were played, followed by Miss McCommis opening her gifts.

Those attending were Mrs. Shirley McCommis, the bride elect's mother; Mrs. Kenneth Noll m.a.n., the prospective groom's mother; Mrs. Evelyn Nelson, her grandmother; and Misses Theresa Burgett, Bonnie Wilhelm, Barbara Leady, Sue Parsons, Kay Van Motre, Debby Votoukal, Janet Gelfer, Colleen Affolter, Cindy Grady and Mrs. Gary Griev.

Graduate Courses To Be Offered Here

Graduate level courses in political science are being offered this spring by Southern Illinois University-Southwestern on off-campus sites at the Granite City Army Installation and in downtown St. Louis.

The course, leading toward a master of science degree in government, are designed primarily for professionals who cannot attend regular classes because of their jobs. Classroom work is done during three intensive sessions on Saturdays and Sundays. Re-

Vietnam Veterans Have New Office

Vietnam-era veterans enrolled at Southern Illinois University-Southwestern have a new office they can turn to when they need advice.

The university has given assistantships to three Vietnamese veterans. All graduate students, to provide informal counseling to their peers through the office of the vice-president for student affairs, Ramon Williamson.

Terry Campbell of Belleville, one of the part-time counselors, said he approached Williamson several months ago with a suggestion for peer counseling. Campbell said he thought there was an unmet need, because about 2,500 of the nearly 12,000 students at SIU-SW are veterans. Williamson agreed that Campbell began counseling in January.

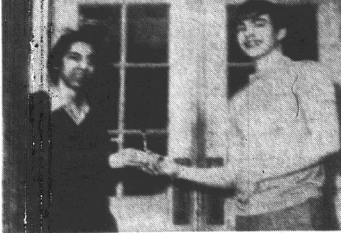

Campbell, a Marine in Vietnam from 1967-69, was joined Feb. 1 by Russ Heuberger of Highland, who served in the Air Force from 1963-67, and by David Robinson of Edwardsville, who served in the Air Force from 1957-61.

"Mostly we are getting requests from veterans having trouble getting their benefits," Heuberger said. "Sometimes their checks under the G.I. Bill are very late."

Campbell said many of the veterans requesting counseling have just resumed their schooling after being released from military service.

"There is a normal waiting period of six to eight weeks before benefit checks start coming," Campbell said. "If a veteran is registered and waiting for a check, we can usually get him a short-term loan through the campus financial assistance office."

Campbell said while the new counselors have been getting organized, veterans have been referred to them by academic advisors in the General Studies Division, by workers in the veterans section of the Registrar's Office "and by word of mouth." Letters will be sent to all SIU-SW veterans this month informing them of the new service, Campbell said.

ROCA TEEN OF MONTH, Mark Ortiz, receives his award from Jim Cardwell, club chairman.

Ortiz Named Roca Club 'Teen of the Month'

Mark Ortiz has been elected as Teen of the Month by the Roca Young Men's Club for his achievements in the speech department.

He has won three first places and three thirds in competition with schools throughout the state and will be one of the students to represent Granite City High School at the state contest.

Combined with his talents and the coaching of Richard King, club advisor, Ortiz is going far. The club is experiencing an eventful month with its Sweetheart banquet and election of officers.

The banquet, held at the Western Bowl in St. Louis, honored "Cathy" Henrich, Paula Krieschok, Judy Morris and Paula Mathis, winter, spring, summer and fall sweethearts respectively, who received trophies for their services to the club.

Elected were Pete Krieschok, president; Brett Champion, vice-president; Jim Cardwell, treasurer; and Dan Schneider, sergeant-at-arms. They succeeded Russ Cherry, Monte Krieschok, Campbell and Vrenick in the respective offices. At the annual spring dinner at Charlie's Restaurant, new officers began their terms and

Job Application Skit By Future Secretaries

The Granite City High School Future Secretaries Association met last week with President Trema Landys calling the meeting to order.

New officers will be elected at the May meeting. Diane Greer, program chairman, distributed pointers on applying for a job.

A skit was presented by five members of the association, with Twila Edmonds, president of the Tri-Cities Chapter, National Secretaries Association, as the interviewer.

The first applicant was Miss Betty Bunt, played by Kathy Williams. Miss Bunt was late for the appointment, loaded with packages. A very pleasant person, very attractive and well groomed—but it was obvious from the skit, not dependable.

The second applicant was Miss Flora Dell, played by Karen Goetting. Miss Dell was dressed very neatly and properly, had a pleasant personality, average marks, no glaring faults and willing to adapt herself to any office.

The third applicant was Miss Kate Frown, played by Angela Hull. Miss Frown was dressed very plainly and appeared not too happy. Not active but above average in grades. She was quite nervous in her answers and not too interested in company background or details of the job.

The fourth applicant was Miss Jane Jones, played by Brenda Mathis. Miss Jones was very charming, simply dressed and had a direct manner about her. She was eager to learn and adapt to the job.

The fifth applicant was Miss Sue Smith, played by Janice Moore. Miss Smith is a playgirl as she appears in tennis shoes and a bright red dress. She is only interested in vacation, social life, men and money.

After the interviews the group was asked to vote on the girl

Decision Pending on Breath Test to Show Intoxication

Copley News Service
Springfield—A decision is expected before the end of March on the specific type of automatic breath analyzer which will be used to implement the new Illinois implied consent law.

The law is scheduled to go into effect on July 1.

Dr. David Boyd, chairman of the Task Force for Implementation of the Implied Consent Law, said bench testing of various available models of the automatic devices is now being

conducted by both Illinois State Police, and the division of emergency health services in the state department of public health.

The public health division has responsibility for selecting the type of machine to be used, and to train and certify the operators who will use them.

"We had a target date of March 8, but we won't make that," Dr. Boyd said. "Now we're shooting for March 18 but I'm not sure we can meet that. But," he said, "we've got

to have a decision by the end of March or we're in big trouble."

About 200 to 300 machines will be purchased initially, and operators for them must be trained and certified before the July 1 effective date for the law, which provides that anyone who drives has automatically agreed ahead of time to take a breath test if he is charged with driving while intoxicated.

A driver can refuse to take the test, but his refusal means he faces automatic revocation or suspension of his license.

Richard J. Mathias, assistant to Gov. Richard B. Ogilvie, said that the Illinois legislature will be asked to make some amendments to the bill when the General Assembly reconvenes in April.

The main changes to be asked involve a current provision which some police officers interpret as meaning state or local police would have to drive an accused drunk all around the state if he demanded it, in order to let him have another, independent test made at his own expense by some non-police agency.

Other amendments to be sought will be minor Mathias said, involving changes in wording and in one case clarifying a requirement which became muddled during the final passage of the hotly contested bill. It appears to contradict itself as to the amount of time which must elapse before a second, mandatory breath test is administered by police.

The law requires that automatic devices be used which will provide immediate printed readouts of test results, a provision that has aroused protest from some police chiefs and law enforcement organizations.

Mathias said he feels much of the objection stems from fear of the cost of replacing existing testing equipment.

But he said the governor has received assurances from the U. S. Department of Transportation that the federal agency will pay 50% of the cost of the new machines for the state police, and 100% of replacement cost for any police department which is already using the older, previously accepted machines.

Any local-level police department which does not currently own a testing device would be reimbursed for 50% of the cost of buying the new machine, Mathias said.

The new testing machines are expected to cost between \$1,800 and \$2,000, compared to \$800 to \$900 for the present models when they are bought in large quantities, according to State Police Capt. Dan O'Brien.

State police currently own 108 old-style machines and plan to buy 125 of the new ones, in order to overhaul their certification procedures — and to re-certify each of the more than 600 approved operators on a staggered basis throughout the year instead of re-certifying all of them during September and the first two weeks in October, as is currently done.

Kick-Off Dinner for Crusade Volunteers

The annual "kick-off" dinner meeting to launch the 1972 Madison County Cancer Crusade will take place at 6:30 p.m. Thursday, March 23 in the Skyroom of the Stratford Hotel, Alton.

Attorney James R. Heil, county Cancer Crusade chairman, said a special speaker will be featured and entertainment is planned for crusade volunteers attending the dinner.

Primary objective of the "kick-off" meeting is to discuss planned activities for the April Cancer Crusade.

Reservations must be made prior to March 21 with the American Cancer Society, Madison County Unit, 528 Henry St., Alton, or by calling the ACS office at 456-7321.

Thad Carter, county crusade vice-chairman, is assisting in arranging the dinner, Heil said.

Junior Achievement Firms Top \$2,000 Gross Sales

Gross sales totaling in excess of \$2,000 have been reached by Junior Achievement companies working with personnel from Granite City Steel Co. on Tuesday nights at the JA Business Center, 3307 Wabash Ave.

A special open house is planned from 10 a.m. to 3 p.m. Saturday, April 8 at the center. The public is invited, according to Bill Eaker of the local steel firm, a Junior Achievement advisor.

Four young people who are members of different JA companies have topped the \$100 sales figure in marketing their products, joining three other teenagers whose sales records previously were announced.

Top salesmen are John Arbogast of "J.A. Steel" which manufactures bookends, garden hose hanger units and first aid kits under the direction of production supervisor, Bob Petermeyer of Granite City Steel.

Miss Cheryl Wells of the "Gelco" JA firm, supervised by Larry Merrick of GCS, which designs, constructs and markets unique hanging lamps, sold by the JA's for \$25 each.

Miss Helen Zelenka of "Allco," a fudge-making company that earlier this season assembled decorative holiday wreaths under the supervision of Dave Schmidt and Curt Pounds of GCS.

The fourth \$100 salesman is Geoff Beyer of "Grandco," a JA firm that produces and sells barbecue pits and boxes of embossed book matches. Larry Druke serves as production supervisor for the "Grandco" company, with Lloyd Miller as alternate advisor.

The three previous \$100 salesmen are Randall Schmidt, Jeanne Livesay and Mary McQuay.

Ogilvie May Create New State Ecology Department

By RAY SERATI
Ogilvie News Service

Springfield—After the General Assembly returns to work on April 10 Gov. Richard B. Ogilvie is expected to send the lawmakers a message dealing with the ecology of Illinois.

It hasn't been completely determined as to whether or not Ogilvie will ask the legislature to form a Natural Resources Department. Currently a study is under way on the possibility of forming the new department. It has been suggested that the new department would incorporate the present Conservation Department, Mines and Minerals Department, Agriculture Department and some work now being done by the Division of Waterways in the Transportation Department.

The ecology message also is expected to detail some environmental guidelines for state construction projects. Hopefully this section will be able to clear up some of the controversy which now surrounds some proposed state projects including the construction of lakes. This proposal could have far-reaching effects on proposed projects ranging from the lakes to highway construction work.

Presumably the proposed environmental guidelines would be enforced by the Illinois Institute for Environmental Quality which is currently headed by Michael Schneiderman. Presently the Transportation Department does some work in the area of looking into the environment on proposed highway projects.

Favors Lake Protection
Gov. Ogilvie also is reported to be favoring some type of legislation which would in the end protect the shoreline of Lake Michigan. Legislation of this type already has been introduced in the General Assembly. He might also oppose the proposal to build a major airport in the center of the lake.

Ogilvie also is expected to call for the passage of the Illinois Scenic Rivers Bill. This measure, has passed the house but not yet the Senate. Hearings were held throughout the state by a Senate subcommittee, headed by Sen. John Lindebaugh, Knappa, D-Petersburg, last summer. However, during the fall session no major action was taken on the legislation.

The Conservation Department is seeking, through the legislation, to preserve some 700 miles along the banks of 13 rivers throughout the state.

The rivers included are the Lower Fox, Kaskaskia, Rock, Apple, Big Muddy, Maumey, Kankakee, Vermilion and Kishwaukee; and Lusk, Shoal and Big Indian Creeks.

Public action on the legislation is expected to be headed by various outdoor groups in the state.

Multiple Sclerosis Drive Dates Are Set

A proclamation designating March dates for solicitation of funds to fight Multiple Sclerosis has been signed by Mayor Don Partney. The proclamation sets March 18, 19 and 20 for a major drive effort and fixes March 24 and 25 as tag days.

The proclamation said: Whereas: Multiple Sclerosis, the mysterious disease of the central nervous system, afflicts approximately 5,000 people in the area served by the St. Louis Area Chapter, National Multiple Sclerosis Society; and Whereas: A dedicated group of men and women have organized to assist those patients in our midst and to secure funds to underwrite research in our own and other institutions of medicine; and

Whereas: March is the month for this group's appeal for community understanding and support, with major efforts between March 18, 19, 20 and Tag Days, March 24 and 25. Now, therefore, I, Donald Partney, Mayor of Granite City, Ill., do proclaim March 18, 19, 20 and March 24, 25, 1972 as: MS Hope Chest Appeal, and urge all concerned citizens to support the work of the St. Louis Area Chapter, National Multiple Sclerosis Society.

Chancel Drama at St. Peter's Church

"Christ In The Concrete City," a chancel drama by P. W. Turner, will be presented at St. Peter's Evangelical United Church of Christ, 21st Street and Cleveland Boulevard, Sunday at 7:30 a.m.

The play portrays the Passion of Jesus Christ from three points. First, it is the story of something that happened; an historical account. Second, the story of the Passion is one of universal significance speaking timely to all mankind. Third, the Crucifixion and Resurrection are events of personal significance speaking intimately to the individual in the secret places of his own soul and urging him to action here and now. In the play, there is the level which shows the modern equivalent of the events or ideas brought out in the other themes.

In the Preface to the play the author states, "I have tried to set forth dramatically the meaning of the Passion in words and images understandable by the ordinary people of a modern industrial city."

"Christ In The Concrete City" first was presented in 1953 by the New Pilgrim Players at St. Peter's Church in England. Since then it has been presented by professional and non-professional groups throughout the world.

The presentation at St. Peter's is under the direction of Mrs. Millie Hoelscher. Mrs. Hoelscher along with her husband, Bill, and their family, are members at St. Peter's. She and her family are active in drama groups within the area.

The public is cordially invited to attend. There will be no admission charge.

Better Industry Image Pledged by Candidate

Harry Lutz, a Republican candidate for Congress from the Illinois 23rd district in the primary March 21, this week stressed that "our community needs jobs. The anti-industry image we now have must be erased and be replaced with a welcome industry look. We badly need a congressman who understands industry problems so that he can discuss with executives of plants in our area their plans for the future."

"We need expansion and new equipment in our plants to protect the jobs of our people now and in the future. Our congressman should be a representative for the community as well as from this community. With my background in engineering and industry, I am well qualified to represent our trade union craftsmen, businessmen and others and to invite companies not presently represented here to build a plant with jobs for people in our area. Few areas elsewhere possess so many advantages for industrial plants."

"A 10% investment tax credit law should be passed by Congress for high unemployment areas. This is the answer for our cities. This proposal in effect would provide the incentive for private capital to be invested in the cities where the workers presently live. For example, it would allow a corporation to build plants in the city at a cost of \$800,000 versus a cost elsewhere of \$1,000,000—a 20% lower cost of construction."

Pollution Control a Failure
"Air pollution has been a major topic of discussion for over five years in Congress, in our state legislature, in lawsuits in courts, and by each one of us as individuals. Is air pollution diminishing? Have you read or heard in the news media that we are making progress? I am thoroughly convinced the Air Quality Act passed by Congress in 1970 is a failure."

"We badly need a law requiring all industrial plants presently polluting the air to allocate funds toward eliminating air pollution, and I have a detailed 29% plan which positively would decrease air pollution without the multiple of hearings, lawsuits and conferences now being held. It also would put to work engineers and scientific personnel in de-

Dr. Theis' Condition Is Greatly Improved
Dr. E. H. Theis, 2200 Bern St., a Granite City physician who has been a patient at Jewish Hospital in St. Louis for several weeks, spent a day at home with his family this week. He returned to the St. Louis hospital and will continue treatment for about three weeks and then will be released.

signing the equipment and jobs for pipefitters, electricians and all other craftsmen.

"Derelict cars are a problem in all large urban areas of our United States. I have a Disassembly Plant program which would offer to the region. The Disassembly Plant would disassemble automobiles in a manner similar to that used in the auto industry. It would clear the streets and properties of derelict cars, provide jobs for unskilled men and women and also provide a source of used parts for the home mechanic, to replace a generator, radiator, fender, or some other piece at a fraction of the present cost to him."

Election Judges to Be Briefed Here Saturday

Election judges who will serve in Quad-City area voting precincts in Tuesday's primary election will be briefed on procedure and use of the voting machines in a meeting at the Granite City High School cafeteria Saturday. County Clerk Eugene Hertz announced today.

The briefing is planned primarily for the judges of the Quad-City area, but will be open to any election judges residing in the location of their precinct. Miss Hertz said, pointing out that a series of such briefing sessions is being held throughout the county. Judges may attend either meeting that is most convenient, she noted. The meeting at the Granite City High School will be held between 2 and 4 p.m. A similar meeting was to be held this afternoon in Highland, another
